pg 21 Clearly shows I count 7 long arms  
(Rifles) with a church party in New  
England going to church the Right to  
Keep and Bear Arms does not except  
in case of Congress passing a law  
based upon "Commerce" or any other  
excuse in fact it plainly states the Right  
to Keep and Bear arms (uninspected) shall  
not be infringed. This is as much  
to prevent treachery by government  
entities state, local, or federal as to  
allow hunting or self defense per se in  
fact the founders wrote this based upon  
SWISS law to prevent the massacre of  
unarmed citizens such as during the  
"30 yr war" therefore Chas. Heyden did  
commit willful perjury (see previous writ)  
and the defendants ATF have no  
Jurisdiction's Wuest v. Wuest Sup.

the 2nd amendment did not give the  
Right as with the first it simply states  
Congress can not deny the Right?

It therefore requires a fully informed Jury  
as is my Right without the United States  
at arms length

Note Rights are not Constitutional but as a  
Review of the Constitution shows they are rights  
given By God which the Agency "ATF" has  
no right by Nature and nature's God to  
deprive Petitioner of!

Petitioner was arrested in 1999 and charged

forced by threat and coercion by Judge  
Chas. Hayden (see previous writs) to take

in contravention of the Constitution of the United States as well as the state constitutions which guaranteed or were written to insure that civil government would not overstep its bounds against the rights guaranteed by nature and nature's God or God dependent on whose interpretation is read. please see Alexis de Tocqueville "Democracy" in America 1830s 2 vol. (1945) Commentary on the Constitution of the United States Supreme Court Justice Hon. Joseph Story (1779-1845) "A page of History is worth a volume of Logic Oliver Wendell Holmes and yet Mr Thomas Jefferson's metaphor of "a separation of Church and State" has been used to allow just what the very founders of this country sought to avoid: tyranny by sects or men. A secular state such as Communism or its predecessor the Bloody French Revolution page 32-33 of American Christian Heritage Gary DeMar Dewey Decimal Class. 973 sub. U.S. History, Religious aspects Christianity, History in fact this magnificent book on pages 10, 16, 17, 21, clearly show people long before the Federal "government" was even thought of when this was exactly what the people demanded a Republic with swords, long and short arms even as
